

For Immediate Release

Hillary Machinery Adds Mark McIntyre to Sales Team in Houston to Support Their Rapidly Growing Market Share in the Region

Mark McIntyre has joined Hillary Machinery Inc's sales team in Houston, Texas and will primarily be responsible for the Eastern half of Harris County and South East Texas. Mark received his Bachelor of Arts degree from DePaul University and acquired additional training from Dupage and Lane Tech in the areas of CAD/CAM, PLC, and arc/gas welding. Mark also possesses practical experience setting up and running mills and lathes, EDM sinkers, saws, machining and turning centers. He learned the art of mold making at his father's mold/die shop where he served out his mold maker's apprenticeship making and polishing molds. Mark has acquired over 20 years of manufacturing experience in machining, rubber and plastic molding, forging and cold-heading, metal stamping and forming, composites manufacturing, CAD/CAM, welding, Six Sigma, ISO, and nuclear certification having held positions as Machinist, Machine Builder, Mold Maker, Mechanical Design Engineer, Manufacturing Engineer, and most recently Sales Engineer with Walter Tool (Valenite) in Houston selling cutting tools and fluids to OEM's, contract manufacturers, and job shops in the oil and gas industry, wind power, and the medical device industry.

"Our sales and market share have been growing over the past 7 months," explains Troy Owen, Hillary Machinery Inc's Executive Vice President. "The primary reason for our market share growth has been about having the right people in the right place with the right product to support our growing customer base." Owen adds, "With the addition of Mark McIntyre, our staffing level is essentially unchanged since September 2008. We employed 24 then and we employ 24 today. Although some months over the past couple of years were slower than others, we were strong enough to maintain our staff during the recession which resulted in an increase in our overall market share in the State of Texas; our visibility was essentially never interrupted. Our suppliers have also been extremely helpful over the past couple of years getting us the right product at the right price to fill our customer's requests. Additionally, keeping our service and support staff intact through the recession enabled us the ability to support that product with as little interruption as possible; customers have simply continued to reward us for sticking with them through the tough times."

Hillary Machinery Inc is a full service machine tool distributor and service organization with offices in Dallas and Houston. They are the exclusive dealer for MAG, Hyundai-Kia Machine America, Milltronics, Quickmill, Cincinnati Inc, and Tsugami. For more information contact:
