## ***4 Smart Money Reasons!***

1. **2011 Section 179 Federal Income Tax Deduction** – This deduction allows a company to deduct the first \$500,000 of equipment (Section 179 Property) purchased in 2011 from their taxable income. For companies purchasing (or leasing - with a \$1.00 buyout lease) up to \$2,000,000 of equipment in 2011, this deduction is available in full.
2. **2011 100% Bonus Depreciation** - The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 applies to machinery placed in service after 9/8/10 and through 12/31/11 (*Reduces to a 50% bonus depreciation after December 31, 2011*).
3. **Trade Value Reinvestment** – Although you have written them off the books, your older worn out machines still have value. Reinvesting that value towards the purchase of new equipment lowers capital gains taxes and allows the savings in #1 and #2 above to go farther.
4. **Higher Efficiency / More Productivity** – The newer technologically advanced equipment of today is faster, more efficient, and more reliable which increases uptime and throughput while saving on your overall operating costs.
