

## Hyundai-Kia & Hillary Machinery Honor Ameriforge Group & H.M. Dunn Company

December 1, 2009

Ameriforge Group, based in Houston, TX, was honored as Hyundai-Kia's largest customer in South Texas. Ameriforge is a manufacturer of forged products dedicated to growing with selected customers and suppliers through collaboration in process and technical innovation applied to global markets, said the company. Major markets served include aerospace, power generation, oil & gas transportation and industrial. Ameriforge offers product design and engineering, open and closed die forging and ring rolling for critical application needs. It utilizes a wide array of steel and aluminum materials, including carbon and alloy, stainless, high temperature and nickel alloys and tool steels. "Ameriforge has been a valued Hyundai-Kia customer since 2005, having integrated multiple Hyundai-Kia CNC machines with its production," said Troy Owen, Hillary Machinery VP Sales & Marketing.

(l-r) Beau Fultz, Manufacturing Manager and James Fultz, President, both of H.M. Dunn Company with the Customer Appreciation Award from Hyundai-Kia Machine America and Hillary Machinery; Mr. Soo H. We, President, Jerry McCarty, Director of Sales & Marketing and Ashley Kim, Sales & Marketing Manager, all of Hyundai-Kia Machine America.

H.M. Dunn Company was recognized as Hyundai-Kia's largest and most influential customer in North Texas after having added several Hyundai-Kia large frame 50 taper VMCs and HMCs to its machining operation since 2005. H.M. Dunn Company is a privately held engineering and manufacturing company located between Fort Worth and Dallas, TX. "We are a progressive machine shop featuring a diverse assortment of 3-, 4- and 5-axis CNC machines specializing in serving the commercial and military aerospace industry," said a company spokesperson. "Over the past 34 years, H.M. Dunn has grown from a 4,800 square foot building to our current size of 150,000 square feet. Throughout this growth, we have perpetuated a philosophy of investment in our personnel, state-of-the-art technology and equipment. James Fultz, President of H.M. Dunn Company, operates this company under the premise that providing our customers on-time delivery and quality products of exceptional value, thereby insuring their competitive advantage, is key to our success and longevity."

### Manufacturing News

Manufacturing News is a monthly metalworking manufacturing publication that informs over 100,000 monthly readers of manufacturing solutions and new technology and the application of that technology in precision machining, production machining, fabricating of metals and composite materials. We welcome news releases that fit our editorial profile. The manufacturing we write about is the machining or fabricating that results in the creation of components, i.e., the manufacturing of discrete parts.
